Added index-aware runtime reporting and final demo artifacts

36433f9  <>

...

 Parshotam Parmar committed 5 days ago

🔗 Commits on May 15, 2026

Integrated live SQL Server runtime validation and finalized evaluation pipeline

9718e9d  <>

...

 Parshotam Parmar committed last week

🔗 Commits on Apr 27, 2026

Week 23: Wrote initial report, add testing evidence, align evaluation with guidelines, and complete project submission

fd502b7  <>

...

 Parshotam Parmar committed last month

🔗 Commits on Apr 22, 2026

Week 22: finalize evaluation artifacts, proposal traceability, comparison reporting, and submission readiness

97371ff  <>

...

 Parshotam Parmar committed on Apr 22

🔗 Commits on Apr 16, 2026

Week 21: codebase cleanup, test updates, documentation standardization, and final pipeline validation

af514a4  <>

...

 Parshotam Parmar committed on Apr 16

🔗 Commits on Apr 9, 2026

Week 19-20: Enhanced static-runtime correlation with confidence calibration and suppression of weak signals; improved scoring precision; implemented recommendation and query rewrite engines with ru... ...

6eb42ba  <>

 Parshotam Parmar committed on Apr 9

 Commits on Mar 27, 2026

Clean tracked files and apply .gitignore ...

ec5e47a  <>

 Parshotam Parmar committed on Mar 27

Removed __pycache__ and add gitignore ...

a75ade6  <>

 Parshotam Parmar committed on Mar 27

Week 18: Refactored evaluation pipeline, standardized expanded runtime validator, introduced coverage metric and non-verifiable rule handling, renamed evaluation_metrics to global_metrics, removed

94d874c  <>

 Parshotam Parmar committed on Mar 27

 Commits on Mar 16, 2026

Week 17 – Fixed rule detection, expanded rules, feature extractor improvements, and updated runtime validation metrics ...

5207248  <>

 Parshotam Parmar committed on Mar 16

 Commits on Mar 6, 2026

Week 16: expanded runtime validation of QueryLens using 30-query workload (17 warnings, 13 runtime confirmations, 76.5% correlation) ...

1c757f9  <>

 Parshotam Parmar committed on Mar 6

 Commits on Mar 2, 2026

Week 15: Implement runtime behavior summary, expanded workload evaluation, and operator distribution metrics for research analysis ...

7a5ee79  <>

 Parshotam Parmar committed on Mar 2

 Commits on Feb 28, 2026

Week 14: Add expanded runtime workload and large-scale validation experiment (20 queries)896a5ff  

...

 Parshotam Parmar committed on Feb 28 Commits on Feb 25, 2026**Week 13: Add HTML diagnostic report generator for runtime validation results with per-query metrics and research presentation output**9ef3cc4  

...

 Parshotam Parmar committed on Feb 25 Commits on Feb 23, 2026**Week 12: Add configurable correlation thresholds and false-positive diagnostic analysis for runtime validation**4b4621e  

...

 Parshotam Parmar committed on Feb 23 Commits on Feb 22, 2026**Week 11: Add correlation accuracy evaluation with rule-level confirmation matrix and research metrics**186c081  

...

 Parshotam Parmar committed on Feb 22 Commits on Feb 20, 2026**Week 10: Add full pipeline evaluator integrating static analysis, execution plan parsing, and correlation to produce runtime validation metrics and research artifacts**8a46a3b  

...

 Parshotam Parmar committed on Feb 20 Commits on Feb 18, 2026**Week 9: Add quantitative evaluation pipeline for AST static analyzer with ground truth comparison and research metrics**ac78d0b  

...

 Parshotam Parmar committed on Feb 18 Commits on Feb 16, 2026**Week 8: Implement AST-based static analyzer and validate equivalence with regex engine**

...

...

12d9c64  <>

 Parshotam Parmar committed on Feb 16

 Commits on Feb 13, 2026

Week 7: Refactor static analyzer into legacy regex module and prepare architecture for ANTLR AST integration 

5ed1781  <>

 Parshotam Parmar committed on Feb 13

 Commits on Feb 1, 2026

Week 5: Add static/runtime correlation and evaluation pipeline 

7712656  <>

 Parshotam Parmar committed on Feb 1

 Commits on Jan 27, 2026

Week 4: Add seeded datasets, operator-forcing queries, and execution plan experiment framework 

699fd39  <>

 Parshotam Parmar committed on Jan 27

 Commits on Jan 15, 2026

Week 2–3: Update work log with prototype development activities 

0e54ea4  <>

 Parshotam Parmar committed on Jan 15

Week 3: Add plan inspection helper script for operator exploration 

60f8398  <>

 Parshotam Parmar committed on Jan 15

Week 2: Add execution plan analyzer prototype and sample sqlplan files 

c53925b  <>

 Parshotam Parmar committed on Jan 15

Week 1: Add environment setup work log 

fe62ede  <>

 Parshotam Parmar committed on Jan 15

Week 1: Initialize QueryLens repository structure 

756133c  <>

 Parshotam Parmar committed on Jan 15
